About Me

I am a highly motivated professional with a strong background in machine learning, deep learning, and computer vision. I have achieved gold badges on C++ and Python problem-solving in HackerRank, and have published a research paper in biomedical imaging. My ultimate goal is to become a top Machine Learning engineer while constantly improving my skills and contributing to the growth of the company through my hard work.

Publication

- Ornob, T.R., **Roy, G.** & Hassan, E. (2022). "CovidExpert: A Triplet Siamese Neural Network framework for the detection of COVID-19". Informatics in Medicine Unlocked, 101156, (Jan 13, 2023). DOI: 10.1016/j.imu.2022.101156

Education

Sylhet Engineering College — February, 2018 - January, 2023
B.Sc.(Engg.) in Computer Science & Engineering — *CGPA: 3.56*

Projects

Data Analysis Projects — *Python, Numpy, Mathplotlib, Pandas, Jupyter Notebook* — Source Code

- Developed expertise in exploratory data analysis and visualization by completing diverse projects, including analysis of **Boston housing data, Covid-19 global health outcomes, and Google Play app ratings data**
- Created a Git repository featuring **8 exploratory data analysis projects**, demonstrating skills in data visualization and analysis

Python Projects — *Python, PyCharm, Jupyter Notebook* — Source Code

- Made some Python projects featuring multiple games and programs, including **Calculator, Dice rolling simulator, Tic Tac Toe game, Caterpillar game, Egg Catcher game, and Hangmarker Game**

Java Application — *Java, Netbeans IDE, Mysql, JFrame* — Source Code

- Designed and developed a **Billing System application** using **Java and MySQL** for my university project, showcasing skills in programming, database design, and software development

Web Based Project — *Html, CSS, JavaScript* — Source Code

- Designed and developed a simple Website called Pioneer Bank using **HTML, CSS, JavaScript**
- Added the project in **Github**

Technical Skills

Languages	:	C, C++, Python, Java, JavaScript
ML Libraries	:	PyTorch, Tensorflow, Scikit-learn
Databases	:	MySQL, SQLite
Dev Tools	:	Visual Studio Code, PyCharm, Netbeans IDE
Others	:	Git, Windows, Linux, LaTeX

Certifications & Achievements

- Solved 350+ problems in various online judges (e.g., **HackerRank**, **Codeforces**, **UVA**)
- Earned Gold Badges in C++ and Python problem solving on HackerRank
- Completed Machine Learning Specialization course from Coursera
- Completed Data Structures course from Coursera
- Completed Data Visualization in Python Masterclass course from Udemy
- Review contribution to the Informatics in Medicine Unlocked
